Work Experience

Graphic designer

Relato Agency

September 2024 until now

Working at an advertising agency was an interesting experience for me. In this agency, I was responsible for designing various advertising templates for both Iranian and foreign businesses. Timely project completion and effective time management were crucial in this company, and projects had to be delivered to clients on schedule and in an organized manner.

Graphic Designer

Fara payvand

April 2023 until Agust 2024

I worked as a graphic designer in the company's marketing team, where I was responsible for creating designs focused on customer satisfaction, including visual identity designs, advertising banners, product catalogs, and marketing brochures to promote products and attract customers.

Additionally, I was given the opportunity within this company to take on the responsibility of designing the user interface for a mobile accounting application aimed at facilitating seamless communication between sellers and buyers. Following several meetings and the completion of the user interface design, the application was successfully launched and is now functioning effectively.

Founder and Graphic Designer

Dekamond Studio

February 2020 until May 2022

With the experience I had gained in graphic design and photography, I decided to start a photography and design studio. The challenge this brought for me was managing a continuous flow of various projects, including graphic design, photography, and editing.

Graphic Designer

Freelancer

May 2019 until August 2020

My career in graphic design began with freelance work, where I handled projects such as brochure design, banner creation, and more. This job was challenging for me as it marked my first experience in freelancing. One of the significant challenges I faced was taking full responsibility for my work, but I managed to overcome it from the very first days of my career.
